We are pleased to announce the [2nd China Canada Systems Biology Conference and the 19th Methods in Protein Structure Analysis](#), which will take place at the Ottawa Convention Centre, Ottawa Canada from June 25-28, 2012. The 2012 symposium is being organized and hosted by the Ottawa Institute of Systems Biology (University of Ottawa), The International Association for Protein Structure Analysis and Proteomics, and the China-Ontario BioAnalytic Consortium (COBAC).

The goal of this meeting is to bring together internationally recognized scientists and students in the field of systems biology, protein biochemistry, and proteomics to promote scientific discussion and the development of new collaborations.
