

## MSC/PHD STUDENT POSITION IN CLINICAL PROTEOMICS

### Drabovich Laboratory

**Position Description:**

A graduate student position (MSc or PhD) is available at the Department of Laboratory Medicine and Pathobiology at the University of Alberta (<https://sites.google.com/ualberta.ca/drabovichlab/open-positions>). We are seeking a motivated candidate with strong background in analytical chemistry, biochemistry or molecular biology and interests in biomedical research. The successful candidate will join our research program in clinical proteomics, prostate cancer, and biomarker discovery.

While protein mass spectrometry is our key analytical technique, we utilize various molecular biology, analytical chemistry and cell culture techniques and bioinformatics approaches to investigate protein function in cells and clinical samples. For our previous publications, see: <https://scholar.google.ca/citations?user=vjz8D14AAAAJ&hl>.

**To Apply:**

Interested candidates should forward a copy of their CV, unofficial transcripts, a brief statement of research interests with career goals, as well as contact information of two referees to [andrei.drabovich@ualberta.ca](mailto:andrei.drabovich@ualberta.ca). International applicants are encouraged to apply. Top-ranked international applicants will be considered for the prestigious graduate program entrance scholarships. For the LMP admission requirements, see <https://www.ualberta.ca/laboratory-medicine-and-pathology/programs/graduate-program/thesis-based/admissions.html>.

**Closing date:**

The position will remain open until filled.

**Location:**

The University of Alberta ([www.ualberta.ca](http://www.ualberta.ca)) is home to 39,000 students and 15,000 faculty and staff and is ranked as a top 5 research-intensive university in Canada and top 100 in the world. Close connections of the Department of Laboratory Medicine and Pathology with the University of Alberta's teaching hospitals facilitate integration of basic science, clinical research and translational medicine. Edmonton is a vibrant Western Canadian city of ~1 million people including an excellent public school system and a full slate of arts, sports, music, restaurants, as well as Rocky Mountains with Jasper and Banff National Parks.

**We thank all applicants for their interest; however, only those individuals selected for an interview will be contacted.**

*The University of Alberta is committed to an equitable, diverse, and inclusive workforce. We welcome applications from all qualified persons. We encourage women; First Nations, Métis and Inuit; members of visible minority groups; persons with disabilities; persons of any sexual orientation or gender identity and expression; and all those who may contribute to the further diversification of ideas and the University to apply.*
